Why Attend?

The Annual ECCMA conference offers attendees the opportunity to meet face to face with colleagues from around the world who are essentially striving to achieve the same goal–developing, implementing and maintaining high quality data. This conference will showcase innovative solutions to many companies' data quality issues.

Here are a few ways to broaden your exposure while attending:

Exhibit: Reserve a standard booth for Wednesday and have the opportunity to make a 45 minute presentation on Thursday. Exhibit registration includes the welcome reception, breaks, breakfast and lunch and one registered attendee. Get Yours Today!
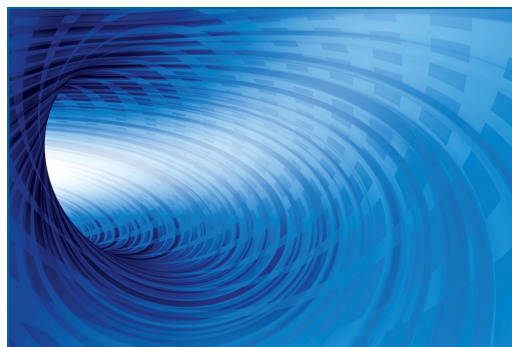

Sponsor: A great way to stand out with recognition in the program booklet, signs with company logo, acknowledgement in ECCMA's newsletter sent to hundreds of contacts, acknowledgement on ECCMA's website with hyperlink and much more.

Award Dinner: Wednesday's award dinner is a great opportunity to get network with attendees from all over the world.

About ECCMA

Formed in April 1999; the Electronic Commerce Code Management Association has brought together thousands of experts from around the world and provides them a means of working together in the fair, open and extremely fast environment of the Internet to build and maintain the global, open standard dictionaries that are used to unambiguously label information. The existence of these dictionaries of labels allows information to be passed from one computer system to another without losing meaning.
